

PART ONE

THE TORAH SOLUTION TO END ALL WARS. I don't watch the news, and I have met many people who tell me the same thing. The reason is I can't stand to see the sheer stupidity and utter folly of World leaders who refuse to learn from World History. As Sir Winston Churchill wrote, "Those that fail to learn from history are doomed to repeat it." Painfully, this is the picture of this age. I am a nobody; however, with the Spirit of YHWH, this House can end all wars and not have another war again with a simple two-part Torah solution that costs humanity nothing. Read on to discover. To explain it, I need to start with Melech Dawid. Most of the knowledge that historians have of King David comes from the Books of Samuel. Divre HaYamim Alef (First Chronicles) records nine battles King David fought and won. His successive victories led the Yisraelites to defeat their enemies and expand the Kingdom of Yisra'el. During the days of Melech Dawid, war and death characterized the Kingdom of Elohim. The fact is somebody had to subdue the enemies of Yisra'el, and YHWH chose a shepherd boy to display His might and strategies for war. For this reason, YHWH told Dawid that he could not build the Temple because his hands were stained with blood (Divre HaYamim Alef (First Chronicles) 17). The Navi Natan told him that his zera (descendant) would build the Bayit Hamikadesh (Temple), and he would be a man of shalom. Accomplishing a reign without wars would require an ingenious strategy and only with the wisdom of the divine. It pleased YHWH to grant Shlomo His gift of wisdom (chochmah) and knowledge (da'at) when he found in this young King the eternal flame of humility and the fear of YHWH (Divre HaYamim Bet (Second Chronicles) 1). In YHWH's wisdom, Melech Solomon forged a path of peace through two ingenious devices. Listen carefully, please, and hear the word of the Ruach. **The first thing the King did was build an amadar, army, and weapons of war unlike anything that existed on Earth** (Melechim Alef (First Kings) 10:24; Divre HaYamim Bet (Second Chronicles) 1:13-15). The Books of Kings do not reveal the ingenious devices of war this man created with the wisdom of YHWH. The weapons he created with knowledge of YHWH were divine, and the forces he trained were swifter than those of a leopard. His military was feared as far as America, Africa, India, and China. With it, he quickly secured peace throughout the Yisraelite empire (Melechim Alef (First Kings) 4:24). **The second thing the King did was to create national and international political alliances with all his neighbors and far beyond the borders of Yisra'el with treaties and intermarriages.** The Melech had 700 wives and 300 concubines (Melechim Alef (First Kings) 10:24). Shlomos' actions are condemned by the naïve who do not understand the Torah in that he broke the Commandments by multiplying wives according to the prohibition in Devarim (Deuteronomy) 17:14-20). Read the prohibition carefully! It applied only to typical kings of the realm but not to Kings who were appellation of the Messiah on Earth. Indeed, when Yeshua returns, this King will have billions of wives. I am among them. How, then, would you apply this prohibition to the Messiah? Solomon had a divine right to multiple wives, horses, and gold as much as he wanted to fulfill the purpose of the Kingdom. But this is what he did wrong that caused YHWH to end his reign. He broke the Covenant and Statutes (Melechim Alef (First Kings) 11:11), which prohibited a King from building high alter in the Set-Apart City and Kingdom. *"5 For Shlomo went after Ashtoreth the mighty one of the Tzidonians, and after Milcom the abomination of the Ammonites. 6 And Shlomo did evil in the sight of YHWH, and did not low after YHWH fully, as did Dawid his abba. 7 Then Shlomo built a high place for Chemosh, the abomination of Moav, in the hill that is before Yahrushalayim, and for Molech, the abomination of the children of Ammon. 8 And likewise he did for all his strange wives, who burned incense and sacrificed to their elohim"* (Melechim Alef (First Kings) 11:5-8). This act angered YHWH and terminated his reign because the King had allowed forbidden realms to enter the Kingdom of the Most High. YHWH would have forgiven him if Shlomo had done Teshuvah, but then he was already too old, and his passions and emotions had mastered him.

PART TWO

Despite his failure, I would rather sit under this man's knowledge and hear him for endless days, for his words flowed like liquid gold and were sweet as honey to taste. The man was an architect of Shakespearian words and a composer of heavenly symphonies. Melech Shlomo enchanted, baffled, and awed kings and queens from all nations because everything he did was the epitome of excellence and perfection. The present Jerusalem is not the Kingdom he created; it is nothing compared to the majesty of his realm. How I miss him, you will never understand. The lesson is clear: if we want lasting peace in our World, two things must be done immediately. We can end the wars, fighting, and violence on Earth and secure a thousand-year peace if we **A) We created right now a World Security Alliance with the West and East of, which includes Russia, China, India, Iran, Saudi Arabia, Israel, North Korea, and others.** This is how Melech Shlomo ended the war with the enemies of Yisrael at a time when peace was also elusive; this implies the disbandment of NATO and the UN Security Council, which has been responsible for the continuous state of war we find on our planet. **B) Immediately combine the militaries of all countries into a World peace force and create one superpower whose objective is to stop all fighting and violence.** This is how Melech Shlomo created the most feared force of his time; he unified all the armies of Yisra'el with other nations and built a one-world force with advanced military technologies. I am optimistic A and B can be easily achieved with the right incentives and motivation. Shamefully, if not, we have another alternative, which lies with a shadow government that rules the World. This Government could quickly intervene and stop all wars, and I am confident they must. We live in a parallel universe of two government systems, and this has been the case for over 1000 years. Senator Daniel Inouye of Hawaii said, "There exists a Secret Government with its own air force, own Navy, and own funding mechanism that is above the law and free from the law itself." They are called the "Shadow Rulers" because they govern from the shadows. This invisible Government system has more money, power, and technology than any nation or group of countries in the World. They are illegal, unconstitutional, and the most corrupt enterprise in the World. They impoverish and entrap humanity in a web of debt, fear, and slavery. They own technologies a thousand years ahead of our present aircraft, ships, and weapon designs, which they took from peaceful aliens. They mastered gravity control in the 1950s and have free energy devices that give them unlimited power. In a war with them, our present military technologies will be eliminated in a matter of hours. No one will tell you these things because this parallel Government wants you to follow the foolish power games the West and East are engaged in. After all, it results in population decline, slavery, and immense financial returns. War is the most profitable enterprise on Earth, earning 10 trillion dollars annually. It supports hundreds of millions of jobs globally in all sorts of industries and is by far the most significant segment in most government spending. The problem with this spending is that it does far more harm than good. Do you think Russia, China, America, Israel, and the Vatican, among many others, are not aware of what I am saying and are oblivious to this solution I am proposing? They know about and collude with them on multiple levels through powerful international groups and agencies. **The thing they don't realize is the unfathomable love The Creator (Ha Yotzer) has for all of His creation.** And I don't mean just man but all living things that beautifully balance and enrich this marvel of our ecosystem that took millions of years to create and perfect. Aravat (Father of Creation) is angry with the nations and their leaders and has set a deadline for them to stop harming the Earth and its citizens. The first requirement to avoid the pending judgments is to implement this Torah solution to end all wars and the propensity to war. If we do not do something about it soon, Divine Edicts will kick in, as some have already killed hundreds of millions of people. I want to stand in the gap, but my hands are tied to a Plow to prepare the way for the Kingdom of YHWH.
